Coin Counter

CS-850

Coin Counter — CS-850

The **CS-850 Coin Counter** have made counting thousands of coins fast efficient and easy. They also have in-built sound insulation making the product operate almost silently.

Using a simple-to-use motor and belt system, they will count up to 2300 coin per minute and showing the amount on the LED display.

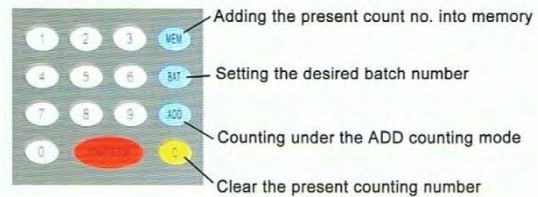

With the adjustable diameter and thickness settings, they can be used to count any coins between thickness 1.0 – 3.5mm and diameter 15 – 35mm.

Coins can be easily collected into any type of bag attached to the bottom of the counter. Any smaller coins will fall into the rejected coin box and larger coins cannot pass through the hopper.

The CS-850 have now become widely used in many commercial premises operating with large amount of coins including Supermarkets, Banks and Casinos.
